|--------------------------------|----------------------|---------------------|-------------------------------|-------------------------------------|-----------------------------------|
| 1. Staphylinidae               | 25. Stenus sp.       | 49. Lagriini        | 73. Carabidae                 | 97. Germarostes sp.                 | 121. Pelidnota sp.                |
| 2. Staphylinidae               | 26. Leptochirus sp.  | 50. Lagriini        | 74. Oxygonia sp.              | 98. Onthophagus sp.                 | 122. Golofa sp.                   |
| 3. Aleocharinae                | 27. Palaminus sp.    | 51. Tenebrionidae   | 75. Harpalinae                | 99. Eurytetrastus plebejus          | 123. Cyclocephala aff. latreillei |
| 4. Philonthina sp.             | 28. Sepedophilus sp. | 52. Tenebrionidae   | 76. Lagriini                  | 100. Uroxys sp.                     | 124. Cyclocephala sp.             |
| 5. Phanolinus sp.              | 29. Tachyporinae     | 53. Carabidae       | 77. Carabidae                 | 101. Uroxys sp.                     | 125. Geniatus sp.                 |
| 6. Staphylinidae               | 30. Aleocharinae     | 54. Nitidulidae     | 78. Ptilodactylidae           | 102. Oedemeridae                    | 126. Geniatus sp.                 |
| 7. Staphylinidae               | 31. Neolindus sp.    | 55. Nitidulidae     | 79. Ptilodactylidae           | 103. Distenia sp.                   | 127. Platycypha sp.               |
| 8. Aleocharinae                | 32. Staphylinidae    | 56. Nitidulidae     | 80. Pseudoxycella chaudiroii  | 104. Chlorida cincta                | 128. Platycypha sp.               |
| 9. Piestus sp.                 | 33. Sepedophilus sp. | 57. Nitidulidae     | 81. Ptilodactylidae           | 105. Acanthocini                    | 129. Platycypha sp.               |
| 10. Oxyletinae                 | 34. Staphylinidae    | 58. Nitidulidae     | 82. Anaedus sp.               | 106. Taeniotus sp.                  | 130. Golofa cf. eacus             |
| 11. Hoplandria sp.             | 35. Elateridae       | 59. Nitidulidae     | 83. Ptilodactylidae           | 107. Anisopodus sp.                 | 131. Lymnecus aff. velutipes      |
| 12. Aleocharinae               | 36. Semiotus sp.     | 60. Leiodidae       | 84. Dyscolus sp.              | 108. Amphelictus astales            | 132. Enema pan                    |
| 13. Paederus sp.               | 37. Semiotus sp.     | 61. Ptilodactylidae | 85. Dyscolus sp.              | 109. Acrocis longimanus             | 133. Phyllophaga sp.              |
| 14. Aleocharinae               | 38. Elateridae       | 62. Carabidae       | 86. Erotylidae                | 110. Rosalba sp.                    | 134. Plectris sp.                 |
| 15. Jubus sp.                  | 39. Elateridae       | 63. Telephania sp.  | 87. Passalus sp.              | 111. Polymitoleiopus mindoensis     | 135. Phyllophaga sp.              |
| 16. Arthmus sp.                | 40. Elateridae       | 64. Passalini       | 88. Passalini                 | 112. Blabia sp.                     | 136. Phyllophaga sp.              |
| 17. Reichenbachia sp.          | 41. Elateridae       | 65. Cleridae        | 89. Passalus sp.              | 113. Parandra sp.                   | 137. Isorychus sp.                |
| 18. Rhombocornus sp.           | 42. Elateridae       | 66. Carabidae       | 90. Phrenapatinae             | 114. Scarites sp.                   | 138. Isorychus sp.                |
| 19. Lathrobium                 | 43. Elateridae       | 67. Carabidae       | 91. Ontherus compressicornis  | 115. Phrenapatinae                  | 139. Pucaya castanea              |
| 20. Staphylinidae              | 44. Elateridae       | 68. Carabidae       | 92. Uroxys sp.                | 116. Golofa sp.                     | 140. Macroductylini               |
| 21. Lathrobium                 | 45. Elateridae       | 69. Carabidae       | 93. Deltochilum burmeisteri   | 117. Anatisia macrophylla           |                                   |
| 22. Staphylinidae              | 46. Ischyromys sp.   | 70. Ptilodactylidae | 94. Deltochilum aequinoctiale | 118. Callistethus sp.               |                                   |
| 23. Oxyletrum aff. discicollis | 47. Strongylium sp.  | 71. Carabidae       | 95. Dichotomus quinquegens    | 119. Cyclocephala aff. nigrobasalis |                                   |
| 24. Biocrypta sp.              | 48. Tenebrionidae    | 72. Carabidae       | 96. Dichotomus divergens      | 120. Chrysisa dzidhorum             |                                   |
